

Swim all year round or soak in the hot tub with an incredibly fast natural gas pool and spa water heater. Heat up your hot tub in less than an hour for spontaneous moments of romance and relaxation.

NATURAL GAS OUTDOOR LIVING

Creature Comforts and The Great Outdoors.

Natural Gas Outdoor appliances make it easy to experience and enjoy outdoor living any day of the week all year round. Gas grills and outdoor kitchens, pool and spa heaters, indoor/outdoor fireplaces, elegant lights - and even bug killers - can all be powered by natural gas.

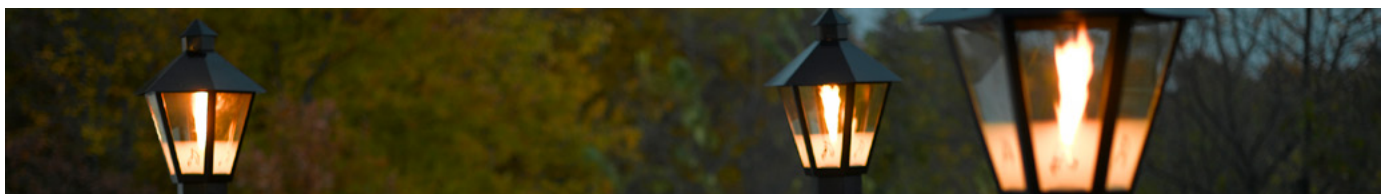

Creative thinking can turn your ordinary backyard into an oasis of family and neighborhood fun. Let your imagination roll... the sky's the limit when Natural Gas is your energy of choice.

A natural gas grill means no tanks to fill, no ashes to clean, no charcoal to buy. The grill is just the first step in your natural gas outdoor kitchen. Modular sinks, refrigerators, pizza ovens and more can make your patio the place to hang.

A natural gas fireplace means instant, instant heat and incredible outdoor ambience.

Outdoor lighting with natural gas lights leads the way in style, ambience and safety.
